

INCLUSIVE LAVATORY

WITH ACCESSIBILITY FEATURES

▲ DELTA

Flight Products

Meets and exceeds all current accessibility rules and regulations including the 2023 amendment to DOT's Air Carrier Access Act.

Universal design for all passengers including those with mobility, hearing, and vision disabilities.

Enhanced usability: smart mirror, overhead grab handle (patent-pending), customizable lighting, touchless features with voice prompt, and optional FAR-UVC Lighting.

Delta Flight Products' inclusive lavatory concept is providing best-in-class experience that accommodates all passengers. The design exceeds regulatory requirements and offers a versatile and convenient solution that enhances accessibility for travelers with a wide range of disabilities. By reimagining the aircraft lavatory, we are solving a persistent challenge in air travel.

INCLUSIVE LAVATORY

WITH ACCESSIBILITY FEATURES

- W-56"
- H-81.5"
- D-27.3"

Flight Products

The overhead grab handle design provides upper body support, allowing the user to transfer between the toilet seat and an on-board wheelchair with ease.

To accommodate infants and children with special needs, the oversized changing table spans the width of the space and supports up to 100 pounds.

Designed for installation in narrow-bodied aircraft.

Grab bars meet diverse accessibility needs.

Fully touchless operations, including door, toilet, water, soap, hand dryer, waste flap, call attendant button and overhead grab handle.

Backlit panel simulates a window and can be out fitted with continuous disinfection technology.
